

ANNUAL STATEMENT OF ZENIQ TECHNOLOGIES LTD

“Good corporate governance should promote the rule of law, transparency, responsiveness, efficiency, equality, accountability, and credibility. It should be executed through a cultural mindset rather than treated as a ‘tick-box’ compliance exercise within the organization.”

- The **company distances itself** from its previous directors and board members, Mr. **Erwin Dokter** and Mr. **Solaiman Al Rifai**. - The Company **lost access to its website, www.zeniq.com**, in 2022 and has become aware of several serious alterations without authorization. These are being investigated by the Company, its legal advisors and responsible courts. The business partnership with the former IT development team has thus been terminated due to certain critical confidential issues. Therefore, we request our clients to subscribe our newsletter for more updates about Zeniq Technologies Ltd. on the new website www.zeniqdigital.com
- The Company is excited to announce its revamp by way of the new “Zeniq Saga” with various new products and services including a **brand-new version of the ZENIQ Hub**, which shall be duly launched this year, in collaboration with new partners, to fulfil the promises that were not catered before by the previous IT service providers. The new version shall thus be faster, better, and more secure than ever before.
- There are disputes and **investigations ongoing in the UAE, Austria** and various parts of the globe for numerous breaches and misappropriation of the Company’s proprietary information, including but not limited to its corporate documents, theft of assets of Zeniq Technologies Ltd. (e.g. notebooks and servers), trademark violations (see [HERE](#)), manipulation of invoices, backdating of contracts and unauthorised use of business trade secrets, which came with extremely high legal expenses and serious financial challenges for the Company.
- The Company hereby declares that there is **NO legal successor of Zeniq Technologies Ltd.** because the original is still actively operating and preparing the new business line. All other “Zeniq” companies, including Zeniq DMCC and Zeniq Corporation AG, have no legal right to represent Zeniq Technologies Ltd.
